PRODUCT CLASSIFICATION (Council Directive 93/42/EEC (as amended by Council Directive 2007/47/EC))

CLASS: I – (Rule 1)

Manufacturing type: Mass-Produced

PRODUCT CHARACTERISTICS:

Made of velour on both sides and reinforced with a core of polyethylene and plastazote padding. The closure strap is adjusted on the forearm and fastens back on itself, making it individually adaptable according to the pressure exerted by its elasticated cuff with hook fastener.

Colours: Beige.

PRODUCT PICTURE:

INDICATIONS:

- Sports and work injury prevention.
- Epicondylitis (tennis elbow).
- Epitrochleitis (golfer's elbow).

MATERIALS:

- Components: LATEX FREE.
- Structure materials: Composition: Polyamide 72%, Polyurethane 28%.
- Fastening or catch elements, if it has any: Hook fastener.

RECOMMENDATIONS FOR PRESERVATION AND CLEANING

Stick the velcros to each other (if the orthosis has any), wash periodically by hand with a damp cloth and a neutral soap. To dry the orthosis, use a dry towel to absorb most of the dampness and leave to dry at room temperature. Do not hang up or iron and do not expose to direct heat sources such as stoves, heaters, radiators, direct sun light etc. During use or during washing do not use alcohols, ointments or dissolvent liquids. If the orthosis is not properly dried any detergent residues could irritate the skin and deteriorate the product.

ADDITIONAL INFORMATION:

Guarantee: 6 month.
